The report that the United States Government will try to place a gold loan in London continues to be circulated and believed. In financial circles it causes keen excitement, which repeated denials fail to abate. The story gencrally accepted is that President Cleveland intends to borrow £10,000,000. Bankers here say that after the repeal of the silver purchase clause of the Sherman act the gold can be obtained easily in London, although the operation would cause a sharp rise of the rates. "The Economist" says that the New-York

reserve of £8.500,000 above the amount legally required, and can make a large transfer of gold to the United States Treasury in exchange for a new issue of bonds. "Thus the requirements of the Treasury could be met in a large measure out of home resources," adds "The Economist," "and although the drain of gold from Europe would eventually be considered. Mr. Gladstone will return to Downing Street on Wednesday. The declared hostility of the Parnellites, under the Redmond brothers, to the Ministry has quickened the Unionist perception, and the Opposition leaders think they now see a good opportunity to defeat the Governcially urgent messages appealing to Conservatives and Liberal-Unionists to be present at the earliest possible moment. Joseph Chamberlain, the Liberal-Unionist leader, who did not expect to return from the United States until the end of November, will hasten home to help Mr. Balfour and Lord Randolph Churchill in their effort to turn Mr. Gladstone out. The ent situation would be changed greatly in the Ministry's favor if Mr. Asquith, Home Secretary, and Mr. Morley, Chief Secretary for Ireland, would agree to soothe the disaffected Irish members by releasing several political prisoners. Such a course, together with assurances that the evicted tenants would resurrance to the constitution of prisoners. Such a course, together with as-surances that the evicted tenants would re-ceive help soon, would avert the opposition of the Parnellites and inspire with new courage the anti-Parnellites.

The governments of the native States in India threaten to embarrass the Central Government by opening their mints to the free coinage of silver. The Nizam of Hyderabad is buying bar silver in considerable quantities, probably with a view to coining it. The cheapness of silver is tempting other native rulers to follow his example. Although coins struck by them could not circulate legally in British India, the people are so accustomed to regarding coined and uncoined silver as of equal value that silver bars could be easily utilized for payments on the same terms with rupees.

AUSTRIA MAY SUFFER BY THE REPEAL.

It is held probable that one of the early effects of the repeal by the American Congress of the silver purchasing clause of the gress of the silver purchasing clause of the Sherman act will be a financial crisis in Germany and Austria. If the United States becomes a large importer of gold, Austria's borrowing of gold for the conversion of her currency must break down. With the defeat of this operation the present financial and commercial inflation must collapse. Financial houses here hope, however, that the demand from the United States will be so met by London and Paris as to prevent a dangerous strain in Berlin.

PRESIDENT CARNOT Toulon, Oct. 28.-The round of festivities in conday to the French naval officers.

Admiral Avelan and many of his officers this morning accompanied President Carnot to the railway station, where a large crowd had assembled. At 9:15 o'clock the President's train started for Paris. Earlier in the morning President Carnot read aloud, in the reception-room of the Toulen Prefecture, a telegram from the Czar, thanking Prance for the cordiality of the welcome extended to the Russian naval officers. The Czar added: "The evidences of sympathy shown by the French will add a new link to the chain uniting the two countries, and will, I hope, contribute to strengthen general peace, which is the object of our most constant endeavors." The language of the Czar's telegram was so cordial that the reading of the dispatch greatly moved those who heard it. Several officers embraced President Carnot, who read the message with much emotion. A number of political personages who were present expressed the opinion that the contents of the message definitely affirmed the existence of an alliance between Russia and France.

The Church of the Nativity is divided among Latins. Greeks and Armenians, each having a separate portion of the edifice for devotional purposes. The church is built in the form of a cross. The nave, which is by far the finest part of the building, belongs to the Armenians, and is supported by forty-eight beautiful Corinthian columns of solid granite, each between two and three feet in thickness and about seventeen feet in height. The other portions of the church, forming the arms of the cross, are wailed up. At the further end of the section which forms the head of the cross and on the threshold is a sculptured marble star, which the people of liethleheft say covers the central point of the earth. Here a long intricate passage descends to the crypt below, where Christ is said to have been born. The walls of the chamber are hung with draueries of the gayest colors, and a silver star, with the words. "He de Virgine Maria Jesus Christian Natus Est" marks the spot of the Nativity. The manger stands in a low recess cut in the rock a few feet from this star.

MAYORS RALLY AT THE FAIR.

A REUNION OF THE CHIEF MAGISTRATES OF MANY CITTES

CARTER HARRISON IN FAVOR OF BURNING THE BUILDINGS-A UNIQUE LITANY-LADY MAN-AGERS TO HAVE A RECEPTION.

Chicago, Oct. 28.-More Mayors of American cities were gathered at the Fair to-day than ever met at one time in any city before. More than 100 cities were represented by their chief magistrates and nearly 1,000 other officials of the municipalities. They entered Music Hall this morning in a body led by the Iowa State Band and Mayor Carter H. Harrison, Mayor John Fitzpatrick, of New-Orleans, and E. S. Stuart, of Philadelphia. While they were passing into the hall the guns of Battery D were thundering forth a salute in honor of Chicago's greeting to the visiting officials and its farewell to the World's Fair. On the platform were many lady managers and most of the Mayors. Sixteen trum peters opened the exercises by sounding a fan-fare of universal peace. A large chorus sang the Star Spangled Banrer" and "Home, Sweet Home," and the visitors joined in the chorus. were also played by the bands of the Exposition.

Alterman M. B. Madden, chairman of the Reunion Committee, called the assemblage to order, Mayor Harrison welcomed his brother Mayors in his grandlioquent style, and his speech advocating the continuance of the Fair another year was heartily applauded. He lauded Chicago and the pluck of its citizens, and said he was in favor of burning the Exposition buildings so that the Fair could go heavenwards in a blaze of glory if it could not be continued. Mayor Stuart, of Philadelphia, responded in behalf of the visitors.

After the speech of Philadelphia's Mayor, who has ome here to see that the real liberty bell gets home safe, the venerable Isabella Beecher Hooker read with characteristic earnestness a unique litany, the assembly reading the selections with her alternately. JAMAICA AND THE FAIR HER COMMISSIONER SAYS THAT HE WILL GIVE A LARGE PART OF THE ISLAND'S EXHIBIT TO THE PERMANENT MUSEUM.

Lieutenant-Colonel Ward, Commissioner from Jamaica to the World's Columbian Exposition, arrived here on the steamship New-York yesterday He is on his way to Chicago to arrange for the pose to go to Chicago immediately on landing, but he contracted a severe cold on board ship, and decided to stay over Sunday in this city to rest and recover. To a Tribune reporter who saw him at the Plaza Hotel yesterday he said:
"I have been much interested in a report pub

lished in this morning's papers that Marshall Field, of Chicago, had offered to give \$1,000,000 to Field, of Chicago, had offered to give \$1,000,000 to found a permanent museum, which should contain many articles which have neen on exhibition at the Fair. It is a splendid idea. If it is carried out, I should be glad to turn over to the museum a large part of the Jamaican exhibit. That would be far more satisfactory to me and far better for the interests of the colony than to sell the articles. The better that Jamaica will be greatly benefited by its exhibit at the Fair. Not only have we brought the problet at the island to the attention of merchants, but we have called the attention of the public to the advantages of Jamaica as a health resort. The island has superior attractions in this line. There are two large hotels there. The roads and drives are among the most beautiful in the world. There is excellent fishing. The climate is superfy. Negotiations are now in progress to have a line of steamships established between Tampa, Fia, and Jamaica. That would reduce the voyage to two or three days."

Leutenant-Colonel Ward has made three previous trips to Chicago in the interests of the Jamaican exhibit.

FAIR TRAVEL OVER THE RAILROADS. Chicago, Oct. 28.-Chicago roads were busily engaged to-day in figuring up the World's Fair traffic since the opening of the Fair. With most of them the conclusions arrived at were only estiwill be a month or so before strictly accurate figures can be had. So far as the figures at hand go, they show that the number of people brought into Chicago by the twenty-one passenger lines entering here during the Fair period were, in round numbers, 3.33.600. This allows 350,000 each for the five leading passenger lines, 350,000 each for the five leading passenger lines, 350,000 each for the five next following, 150,000 each for the next group of five, and 50,000 each for the six weak lines. Allowing each of these passengers to have visited the Fair five times, would account for an attendance of 16,75,000, which would be a good proportion of outside visitors. A ONE-SIDED GAME ON ORANGE OVAL. The Orange Athletic Club won from the Rutgers College eleven on the Orange Oval yesterday afternoon, by the score of 34 to 0. The Orange rush line was heavier than the college line, which became easily winded. The game was hard-fought, the Rutgers team several times coming near scoring Brilliant plays were made by Wieters, Webb, Marshall and Griswold, of the Orange team, and by G. Ludlow, Parker, Mason, Post and Van Slyke for the college team. Orange played a good all-round game, while Rutgers made most of her gains around the ends. The teams lined up as follows:

MINERS ON STRIKE IN COLORADO.

Denver, Oct. 28.-The following is a carefully prepared statement of the number of miners out at each of the coal mines involved in the strike, pre pared from dispatches received by the United Press to-day, from every coal-mining camp in the State: Louisville-Caledonia, 85; Acme. 185; total, 270. Lafayette-Simpson, 75; Gladstone, 65; Excelsior,

Rockvale-Santa Fe Mines, 600.

Newcastle Santa Fe Mines, 250. This makes a total of about 1,200 men out in the State. On account of the stringency in financial circles, mine operators found some difficulty in getting hold of ready cash, and it is stated that the men agreed to accept checks in payment of their September salaries, redeemable November 12. But the miners had to live in the mean time. They say that they were led to believe that they could negotiate the checks at the stores, but that when they presented them an exorbitant discount was demanded. At Lafavette for instance, the Lockwood Company absolutely refused to accept the checks under any consideration, and a firm condescented to cash them at a discount of 50 cents on the dollar,

POSSIBLE DIVIDEND FOR STOCKHOLDERS. Receivers O'Brien and Cannon put in a busy day to the Madison Square Bank yesterday. Mr. at the Madison Square Bank yesterday. Mr. O'Brien said that the receivers were proceeding, as fast as possible to arrange for paying a dividend to the stockholders. He said that they would probably give up the present office and take one less expensive.

THE LOSS BY THE PITTSBURG FIRE. Pittsburg, Oct. 28.-The loss sustained in the destruction by fire of the immense building owned and occupied by the Pittsburg Storage Company and the Chautauqua Lake Ice Company, is now placed at \$50,000, on which there is an insurance of about \$600,000. All of those reported injured are doing well and will probably recover.

KILLED BY HER FORMER LOVER.

Osawatomie, Kan., Oct. 28.-At the home of Bos Morgan, in the western part of the city, at 7 o'clock last evening, Miss Lettle Jackson, who was calling there, was shot and instantly killed by James Rainey. He fired through a window, and made his escape in the darkness. They had been engaged, but the match was broken off.

GREAT DROP IN THE PRICE OF WHALEBONE. New-Bedford, Mass., Oct. 28.-Whalebone sold in this market to-day at \$2 per pound, the lowest for some years, and a very material reduction from the figure of a year ago-about 35 per pound. This great drop in price is caused by the unprecedented eatch of the whaling steamers that wintered in the Arctic last winter.

CLOSING PRICES OF SAN FRANCISCO STOCKS. Boston, Oct. 28.—Captain Gurney, of the barkentine Bruce Hawkins, which arrived this morning from Brunswick, Ga., reports that he passed through one of the worst storms that he has ever experienced in his many years of seafaring life. The Hawkins left Brunswick October 8 with 470.—100 feet of lumber, but on her arrival here she was minus about 60,000 feet, having shifted her deckload the second day of the storm, and been obliged to jettison that amount in order to case
